Introducing the new BioCleaner OS Units

The BioCleaner OS Units are easy-to-use bio-augmentation units that break down odor and sludge!

For retrofits and upgrades, BioCleaner OS Units are a perfect fit for confined spaces and areas with small access points.

**OS/100 and OS/50
Augmentation Units**

Odors? Sludge?
Not with BioCleaner OS!

BioCleaner OS Units The perfect solution for sewage systems.

- Eliminates sludge and odor
- Improves performance of existing water treatment system
- Simple to use
- Shortens your HRT
- Prevents filamentous bacteria after the grease trap.
- Probiotics used and released are non-pathogenic certified as Biosafety Level 1 (BSL-1)
- Modular, portable design

Available in 2 sizes!

- OS/50 can treat up to 50,000 gallons of water.
- OS/100 can treat up to 100,000 gallons of water.

**Keep your environment clean, sludge-free,
and odor-free with BioCleaner OS!**
